

## Corporate extranet

Represents the must have tool for every travel agency which has corporate clients. It opens a doorway for any corporate client, which allows it to access financial data (as well as operational data and reports) directly from the travel agency mid office in a secured environment. In addition, the client has the possibility to add a new order directly inside the CE and monitor its status

### Characteristics

### Product main features

The Corporate Extranet is a website connected to TINA, which has the following characteristics:

- ✓ **Multilingual support:** the interface may be translated in any language
- ✓ **Adding and monitoring orders:** the client is able to add a new order form that is automatically transferred inside TINA. The status of the order as well as any documents attached to it may be viewed at any time inside the CE
- ✓ **Invoices, payments and reports:** the client is able to view and download invoices, information about payments and reports. All the information is transferred automatically by TINA to the Corporate Extranet under the travel agency complete control
- ✓ **Access rights and accounts:** the client has full control in respect with additional accounts inside the Corporate Extranet; in addition, for each account he has full control over the access rights to different sections and functions
