QA TESTER

WHO WE REALLY ARE?

We are travel enablers that connect travel professionals from all over the world with each other, reaching the best offers on the market, using innovating technology.

We are technology and travel passionate, we are engineers, we are travel evangelists. But most importantly, we are listeners. We believe that good is the enemy of great.

Currently, we are extending our crew, so we are looking for ambitious **QA Testers** that share the same values we do.

WHAT ARE WE LOOKING FOR?

Good knowledge of QA and software testing;
Knowledge of non-functional testing approaches;
Nice to have: PHP my admin, PHP Storm, Eclipse, Jira, MySQL, Soap UI Experience, knowledge of Agile testing methodologies.
University degree in Computer Science, Computer Engineering or related field;
A good team player and a problem solver with analytical skills;
A self-learner and investigative person.

WHAT WILL YOU DO?

Conducts early life cycle validation and verification;
Identifies, plans, estimates and schedules phase tests;
Identifies quality gates and their corresponding entry and exit criteria;
Takes responsibility for the production and approval of testing deliverables and achievement of testing milestones during a project;
Be responsible for the documentation of test plans, test cases and test report;
Develop tests in order to assure functionality coverage;
Run tests, analyze results and report bugs found by the tests;
Define and design test regressions.

WHAT`S IN IT FOR YOU?

Opportunity for professional long-term development in a young and dynamic environment;
Opportunities for professional development and a nice benefits package;
Opportunity to work with a strong-growing company that continues to gain renown and expand in new markets.

If we caught your eye, please reach out to us at **hr@dcsplus.net**
