THE RESTART OF TRAVEL IS A DEFINING MOMENT

The pandemic has presented in many cases the opportunity to deepen relationships with your corporate customers. Companies will need to adopt a different approach to travel in a new era and learn to travel smarter, which means relying more than ever on TMCs.

- Companies are looking at the ROI of travel in a new light and TMCs playing a role in helping companies monitor and manage spending and making easy access for getting the right data.
- CFOs are looking to improve productivity of their teams through smarter integrations of data.
- The pandemic has also highlighted the importance of technology, being at the core of the TMC value proposition.

- Better insights lead to better business travel

...which is why you can provide all the data your corporate customers need to make timely and actionable decisions for their travel spending.

AII-IN-ONE PLATFORM

The single-platform solution seamlessly integrates all the data regarding the travel program evolution. Stakeholders will each be connected to a suite of data through a single connection gateway to all booking, invoices, KPIs and useful reports.

FOR FINANCE TEAM Reporting made easy!

Faster and more intuitive reports
For each company and Corporate Portal account, you have the option to manage what type of reports you can include and what type of source to be used: Services, Invoices and Payments.

In case you wish to use that specific report for other companies, you have the option to clone it for managing much easier the configuration process.

The screenshot displays the 'CORPORATE PORTAL' interface with a 'Reports' section. A navigation sidebar on the left lists 'Dashboard', 'Services', 'Invoices', 'Payments', and 'Reports'. The main content area shows a table of reports with columns for '#', 'Name', 'Description', and 'Actions'. The table lists four reports: 'Travel Reports', 'Top Travelling Employees', 'Financial Report', and 'Payments Reports'. A pagination bar at the bottom indicates 'Showing reports 1 to 4 of 4'.

#	Name	Description	Actions
