CORPORATE SELF BOOKING TOOL by dcs plus

INTRODUCTION

Corporate Self Booking Tool was designed to simplify the complex traveling process for your corporate customers.

HOW IT WORKS?

YOUR OWN TRAVEL CONTENT

The **CSBT** provided by **dcs plus** brings you full content freedom. Having pure neutral content, the platform allows you to put up for sale the travel content that you have contracted from your chosen suppliers. Provide your corporate customers access to commercial airlines through GDS or Direct Connect option, low-cost carriers, hotels from the wholesalers that you have agreements with or your own contracted hotels.

TAILORED FOR EACH COMPANY

dcs plus' CSBT platform is scaled to the business travel needs and requests of your corporate customers. Your corporate users will be able to search through your travel content database and further book if they comply with their specific travel policies.

KEY FEATURES OF CSBT

- Your own travel content
- Tailored for each company
- Unlimited number of users
- No transaction fees

- Advanced user profiles
- Advanced travel policy configuration
- Approval chain
- Reservation management

- Easy Search & Book process
- Fast search response time
- An intuitive, user-friendly interface

- Remarks configuration compatible with GDSs and your Mid Back Office System
- Cost centers
- Reason codes
- Corporate reports

Offer your corporate customers an optimized and straightforward travel management process.

Your travelers can **plan, search** and **buy** travel services within their company's travel policy.

FAST SEARCH RESPONSE TIME

The screenshot displays the CSBT platform's hotel search interface. At the top, a navigation bar includes a company logo, a search bar, and links for 'MY RESERVATIONS', 'TRAVEL POLICIES', 'APPROVAL LIST', 'USERS', 'REPORTS', and 'SETUP'. Below the navigation bar, a progress indicator shows 'Search' as the active step, followed by 'Results', 'Details', and 'Finish'. The main content area is titled 'Hotels in LONDON' and shows a map of London on the left. The search results list several hotels, including 'GOOD HOTEL LONDON' (149.22 EUR for 1 night), 'HEATHROW HOSTEL', 'THE OLD PALACE LONDON', and 'FOUR SEASONS LONDON'. A sidebar on the left provides filters for 'PRICE RANGE', 'DISTANCE RANGE', 'STARS', and 'TYPE'. A warning message at the bottom states: 'Outside policy: The price is outside the travel policy.'

The screenshot displays the CSBT platform's flight search interface. At the top, a navigation bar includes a company logo, a search bar, and links for 'MY RESERVATIONS', 'TRAVEL POLICIES', 'APPROVAL LIST', 'USERS', 'REPORTS', and 'SETUP'. Below the navigation bar, a progress indicator shows 'Search' as the active step, followed by 'Results', 'Details', and 'Finish'. The main content area is titled 'London LGW - Los Angeles LAX' and shows a search form with fields for 'LONDON', 'LOS ANGELES (CA)', '19/03/2017', and '21/03/2017'. The search results list several flights, including 'TURKISH AIRLINES' (783.55 EUR total). A sidebar on the left provides filters for 'PRICE RANGE', 'DISTANCE RANGE', 'STARS', and 'TYPE'. A warning message at the bottom states: 'Outside policy: The price is outside the travel policy.'

Listing Flights results

CSBT provides your business travelers a fast search response time which translates into time-saving for your users.

Travel content can be easily narrowed according to your users' preferences through the advanced content search and filters available in the platform.

Every result is marked according to the travel policy associated to that specific user.

ADVANCED USER PROFILES

The screenshot displays a web application interface for configuring user profiles. The top navigation bar includes a company logo, a search bar, and links for 'MY RESERVATIONS', 'TRAVEL POLICIES', 'APPROVAL LIST', 'USERS', 'REPORTS', and 'SETUP'. The 'USERS' tab is active, showing a list of users with a red box highlighting the 'User Rights Approvers & Arrangers' column. A modal form is open, titled 'User rights approvers & arrangers', with tabs for 'General Information', 'Cost Center', 'User Rights Approvers & Arrangers' (selected), 'Frequent Flyer Cards', 'Delivery Addresses', and 'Alerts & Preferences'. The form contains the following fields and options:

- Select Travel Policy:** A dropdown menu with 'Marketing & Sales' selected.
- Flight service is Enabled:** A checkbox that is checked.
- Maximum price for Flight service is set to:** A text input field with the value '300'.
- Hotel service is Enabled:** A checkbox that is checked.
- Maximum price for Hotel service is set to:** A text input field with the value '120'.
- Select User Role:** A dropdown menu with 'Role' selected.
- Role Selection:** A grid of checkboxes for 'Booker' (checked), 'Travel manager', 'Analyst', 'Arranger', and 'Approver'.
- Select User Approver:** A dropdown menu with 'john.smith@company.com' selected.
- Select User Arranger:** A dropdown menu with 'marie.anne@company.com' selected.
- Buttons:** 'SAVE' and 'CANCEL' buttons are located next to the 'Select User Role' dropdown.
- Footer:** A green 'SAVE' button with a checkmark icon is at the bottom of the modal.

Travel managers can define user rights and roles for various users or per users group according to your travel program.

- Add personal data
- Set the role of the user
- Associate travel policy profile
- Associate approver per user
- Associate cost centers
- Add multiple frequent flyer cards
- Configure travel preferences
- Set notification preferences

ADVANCED TRAVEL POLICY CONFIGURATION

CSBT platform helps your corporate customers make travel arrangements while staying compliant with specific travel policies.

- Set travel restrictions per service (Departure/ Check in date, type of flights allowed, accepted departure cities, accepted destinations, allowed flight classes, price restrictions, airline & hotel restrictions)
- Define outside and inside policy configurations
- “Out of policy” rule that supports Hide, Restricted or Request for approval.

The screenshot displays the 'Flights' configuration tab within the CSBT platform. At the top, there's a 'Travel Policy name' input field and a toggle for 'Flights' (active) and 'Hotels'. Below this, a status bar indicates 'This service is Active'. The main configuration area is divided into two sections: '1. Outside policy trips' and '2. Flight classes'. The 'Outside policy trips' section includes a 'Flights departing in less than' field with a range of (1-20), a 'Type of trips' section with radio buttons for 'Round trip' (selected), 'One way', and 'Multiple cities', and two 'Accepted' lists for 'Accepted departure cities' and 'Accepted destinations', each with a 'Type a city' input field. The '2. Flight classes' section features a dropdown for 'Select allowed flight classes' set to 'Economy' and a toggle for 'if not within policy...' set to 'Restricted'. At the bottom, there's a 'Disabled' checkbox and a '> Advanced' link.
